

I. General Information

Company Name			
Company Address			
Product Manufactured / Service Provided		Production capacity	
Brief Description of Production Process			
Have you conducted Energy Audit in past (Y/N)		Year of Energy Audit conducted	
Electrical Energy Consumption of any (the biggest) one month (KWH)		Electricity bill paid month	

II. Fuel and Thermal Consumption Details

Particulars	Consumption per month (tones, kilolitres, etc.)	Average Bill/Month (if purchased to other company)
Coal		
Natural Gas		
Diesel		
HP (High Pressure) Steam		
LP (Low Pressure) Steam		
Average Total Energy Cost in Rp. / Month		
(Electrical + Thermal)		

III. Please provide data in Brief of Utility/Equipment

Type	Location	Number of Equipment	Capacity (kW)
1. Transformer			
2. Boilers / Thermic fluid heaters:			
3. Air Compressors:			
4. Refrigeration / Air Conditioning System/Chiller :			
5. Motors :			

IV. Document Required before Conducting Energy Audit

1. Single line diagram	3. Data of production pattern for each product in month
2. Production process flow	4. Data of energy consumption in a month
